

Special Conditions of Contract · SYN-2026-001

SPECIAL CONDITIONS OF CONTRACT

5.1 Performance security. The Contractor shall furnish a performance security in a form acceptable to the Authority, equal to 5% of the Contract Price, valid until 90 days after the end of the Defect Liability Period.

5.2 Insurance. The Contractor shall procure and maintain adequate insurance covering all risks associated with the Works for the full duration of the contract.

5.3 Environmental compliance. The Contractor shall maintain reasonable levels of dust suppression during demolition and earthwork activities, and shall take appropriate measures to mitigate noise and vibration impact on neighbouring properties.

5.4 Safety. The Contractor shall provide a sufficient number of qualified safety officers at the Site at all times during execution. The Contractor shall ensure that all workers are appropriately trained.

5.5 Reporting. The Contractor shall submit progress reports to the Engineer at regular intervals throughout the contract period.

5.6 Quality control. Quality control testing shall be carried out as per the relevant IS code with sufficient frequency to ensure compliance.

5.7 Local employment. The Contractor shall make best efforts to employ local labour wherever feasible.
